PROJECT PITCH

Owner/s: Megan & Leela	**Project Name:** Khalos Treasury	**Phase and Cohort:** Phase 1 - 080822

One sentence app description:
Museum app to view artworks and their information, buy prints of users' favorite artworks, and save favorites to a personal 'gallery'.

|	
Timeline: Monday:7pm-9pm Tuesday:7pm-9pm Wednesday:7pm-9pm - Have MVP ready Thursday:7pm-9pm - Stretch goals if possible ● Art Institute of Chicago → API https://api.artic.edu/docs/#introduction ● Save users and carts with our own db.json ● Design: Use Bootstrap with CSS ● Challenges: Having enough time to complete our objectives, and getting stuck on the JavaScript code because we're so new to it.	**Domain Model:** n/a **User Stories:** User will be able to: ● See a list (pictures) of artworks ● Be able to click on a specific artwork and get details like the artist and description ● Save an artwork to their favorites ● Buy a print - Add To Cart **Stretch Goals:** ● Integrate external API ● Implement user login ● Search artworks
